PACKAGING INNOVATION: THE FUTURE OF SUSTAINABLE SOLUTIONS

We're excited to share that terrapaq™ made a strong impression at ICBS 2025, where we proudly showcased our range of biodegradable packaging solutions. The response was overwhelming, with visitors from a diverse range of countries expressing strong interest in our innovative, earth-friendly products.

As the first company in Malaysia to distribute self-destructing plastic products, and the recipient of the SIRIM Eco-Label 098:2023, terrapaq™ is setting new benchmarks for sustainability in the packaging industry. The international attention we received at ICBS reaffirms the growing global demand for environmentally responsible alternatives, and we're proud to be part of that change.

ABOUT US

terrapaq™ is a sustainable packaging brand by Helipro Enterprise Sdn Bhd, a company with a solid background in industrial supply and environmental innovation. Our name blends "Terra" (earth) and "Paq" (packaging), reflecting our mission to create packaging that protects the planet. At terrapaq™, we believe that sustainability should be accessible to all. That's why we offer affordable eco-friendly packaging solutions, making it easier for businesses to go green without compromising their bottom line. With groundbreaking products and a clear commitment to eco-conscious innovation, terrapaq™ is ready to meet the future of packaging today.
