Sharing Joy and Innovation This Ramadan

This Ramadan, we've been spreading joy at numerous Bazar Ramadan locations!

Our **Lunch Box 950 MPRO** and **Hawker Paper Cap Telefon Pro** received strong feedback from vendors for their ultra oil-proof durability and reliable performance.

It's always a delight to see how our products have helped support their daily operations.

Supporting the Shift Towards Sustainable Packaging

terrapiq™ is thrilled to see more brands going green! Tealive is switching its cups & straws to Lifecycle time-controlled biodegradable solutions, fully SIRIM ECO 098:2023 certified.

AEON also embraced self-destructing trays this festive season showing the industry's growing commitment to smart, responsible innovation.

As a partner in self-destructing plastics, terrapiq™ is excited to help brands make sustainability practical, scalable, and fun. Join us together, we're building a greener future, one cup at a time!
